

MaineHealth would like to recognize practices that achieved a rating of “good,” “better,” or “best” on childhood immunization rates according to the MaineHealth Childhood Immunizations Program Clinical Improvement Plan (CIP) in 2014.

The CIP was created to achieve MaineHealth system-wide alignment of childhood immunization measures. The ratings for practices are in accordance with the Maine Health Management Coalition’s Pathways to Excellence (PTE) Program on clinical outcomes for pediatric preventative services, which is based on state and national benchmarks. Specifically, the metrics include 1) the percentage of 2 year-old children who are up-to-date on the 7-series (4.3.1.3.3.1.4) immunizations, plus hepatitis A, influenza, and rotavirus vaccines, 2) the percentage of 13 year-olds who are up-to-date on meningococcal and Tdap/Td vaccines, and 3) the percentage of 13 year-olds by gender who are up-to-date on the 3-series HPV vaccine.

The practices that earned this distinction demonstrated their commitment to keeping Maine’s children healthy by reaching national and state benchmarks for childhood immunization rates.

Congratulations are in order for the following MaineHealth practices:

Maine Medical Partners

Maine Medical Partners Westbrook Pediatrics
Maine Medical Partners Lakes Region Primary Care
Maine Medical Partners Falmouth Family Medicine
Maine Medical Partners Falmouth Pediatrics
Maine Medical Partners Portland Pediatrics
Maine Medical Partners Portland Family Medicine
Maine Medical Partners Pediatric & Internal
Medicine/Pediatrics Clinics
Maine Medical Partners South Portland Pediatrics
Maine Medical Partners Saco Pediatrics
